**While you and your staff are busy providing care
for everyone else, who is taking care of you?**

We are!

Our **i-employer.net** service is watching out for you!

It is difficult for companies to secure their own workers' compensation coverage. This is especially true for healthcare industries. It takes up valuable time to research the employee leasing markets to get the best coverage and value. Healthcare providers often have too much exposure for carriers to take. In addition to the exposure issue, temporary staff is often used to fill positions in nursing homes, for in home healthcare, and hospitals. To top it off multi-state capabilities are often necessary.

From leasing services (payroll with workers' comp), to the right benefits package, including health, life, dental, vision, disability, employee assistance programs, and retirement plans, we have the answer. By partnering with many regional and national providers, we offer a wide range of services at very competitive prices. I-Employer.net service has shopped the employee leasing market for the best providers for healthcare professionals. We have found viable solutions for employers that are very attractive to your business.

We know that your time is valuable. We are available for direct appointments if necessary or we can gather all necessary information for a quote via fax, email and phone so as not to impose on your time. After we've received all required information, it should take approximately 3-5 days to provide you with a competitive quote. Find out what many others already know ...
